To whom it may concern

Re: Fitzgerald Projects

I am pleased to be able to recommend Fitzgerald Projects (Brendon Fitzgerald) for building projects.

Brendon provided preliminary advice and planning about refurbishing a factory building in Brunswick into a modern office/warehouse. His service included preliminary inspection, coordination with the architect, input into the budget requirements for the project and general advice about cost-effective solutions to the refurbishment of an industrial building. His tender was competitive.

Brendon started and completed the project on time and provided good feedback on the scheduling of key subcontractors.

I would be happy to provide more information if required.

Yours sincerely,

John Price
Business Manager
