To whom it may concern

Re: Fitzgerald Projects

We have contracted with Fitzgerald Projects to renovate and re-vamp several offices.

These works have taken place in older buildings that have required practical planning and implementation of works to achieve a quality finish commensurate with budget requirements.

The team at Fitzgerald Projects have in-house qualified cabinet makers, plumbers, licensed data cabling, skilled carpenters and experienced project managers.

These in-house qualifications assist greatly in bringing projects to fruition.

They demonstrate an ability to work with and around active offices with minimum disruption.

Yours faithfully

Matt Williams
